MADE IN INDIA,
FOR INDIAN HOMES.

Voltas, a part of the Tata Group was founded in 1954 and is India’s most trusted and largest air conditioning brand. Beko, on the other hand, is an international home appliances brand of the Arcelik Group owned by Koc Holding - a Fortune Global 500 company in Europe. Together, we have formed Voltas Beko.

The company is taking the government’s ‘Make in India’ initiative forward by manufacturing Direct Cool Refrigerators in the country, at our factory in Sanand, Gujarat. In addition, Voltas Beko appliances include features that are customised for Indian homes and are guaranteed to simplify the daily life of Indian consumers.
WASHING MACHINES
FRONT LOAD WASHING MACHINES

SteamWash™

Less creasing. Better cleaning.
Voltas Beko washing machines use steam to ensure that your laundry is smooth and spotless.

SteamWash™ technology ensures better cleaning and washing by releasing steam from the bottom of the drum at the beginning and the end of the washing program. The steam softens up the dirt, making it easier to remove, and also makes your clothes softer while reducing creasing.

BENEFITS

- Removes dirt easily.
- Minimizes creasing on clothes.

BENEFITS

- Special treatment to remove tough stains effortlessly.
- Fights dirt without damaging your clothes.

Leave tough stains to an expert.

Voltas Beko’s StainExpert™ gets rid of tough stains like mustard, turmeric, curry, collar stain, oil, etc. A combination of rinse cycles, special soaking phases, different water temperatures, and increased tumbling action makes sure your clothes remain free from spots and stains.

Stain Expert™

The StainExpert™ program tackles 26 different types of tough daily stains with three different soil level options.
The perfect laundry for your sensitive skin and your baby.
Along with removing any risk of allergies, the Hygiene+ program makes your laundry as clean as ever.

**Benefits**
- At 60°C, the upper rinsing cycle provides anti-allergy results by removing pet allergens, mites and pollen.
- At 20°C, the program helps remove bacteria and fungi.

Get your laundry done in a jiffy.
Now when you’re doing your laundry, don’t worry about running out of time.

**Benefits**
- Fast+ gives you up to 55% faster washing.
- Optimum washing results.

ProSmart™ Inverter Motor
Energy Efficient Washing
The ProSmart™ Inverter Motor enhances your machine’s performance while consuming less energy.

**Benefits**
- The consumption of water and electricity is extremely low.
- Along with superior energy efficiency, Voltas Beko’s ProSmart™ Inverter Motor provides low mechanical friction, lowers noise levels, and improves durability.

Get perfect rinsing and cleaning results.
AutoDose adds the optimum amount of detergent and softener to your washing.

**Benefits**
- Runs up to 2X cycles without soften.
- Saves energy, water and detergent.
Clean your clothes in a few minutes.

Doing laundry can take up a major chunk of your day. Voltas Beko washing machines come with two short washing programs, i.e. Daily Express and Xpress Super Short. The Daily Express program washes a full load of laundry in just 28 minutes at 30°C. The Xpress Super Short program helps to wash 2 kg of lightly soiled garments in just 4 minutes.

A washing machine that washes itself too.

Thanks to this special program, the drum in the washing machine receives the necessary cleaning automatically. The program only starts when the drum is empty. It ensures that there is no accumulation of residue in it after the clothes are washed. This is achieved when the optimal amount of hot water is used at 70°C with a much higher tumbling speed as compared to standard programs.

Washing machines, simplified.

Operate your washing machine at the touch of a button.

The Touch Control feature includes a panel that has buttons for power, pre-wash, eco-mode, temperature setting, and more. This makes it extremely simple for you to access various functions of the machine, with just one touch.

Your smartphone is your remote.

The HomeWhiz™ application connects your smartphone to your washing machine, so you can control it from anywhere inside the house. The application also includes a feature called Identity Program, which lets you choose the right range of washing programs that are best suited for your clothes.

Effective washing, yet gentle on your fabrics.

Voltas Beko’s GentleWave™ system provides effective washing that is gentle on all kinds of fabrics. Combined with the GentleWave™ drum and a special paddle design, the unique inner contours of Voltas Beko washing machines generate powerful waves that are effective at dirt removal, yet are harmless for clothes.

BENEFITS
- The GentleWave™ system is a combination of GentleWave™ drum, inner door Gensis Curve, and paddle design.
The smart way of drying your laundry.

**DRYER**
Volta Beko's washing machines come equipped with Smart Moisture and Temperature Sensors.

**Optisense® Technology**
Optisense® Technology helps you choose the preferred level of dryness. The dryer stops automatically when the desired level is achieved. The moisture sensors make sure that your laundry is evenly dried. Along with that, an extra smart sensor looks after your machine by detecting voltage surges, protecting it by cutting off the power and helping it last longer.

**Heat Pump Technology**
Heat Pump Technology saves energy by drying your clothes without the need for a heater. In fact, it uses 60% less energy as compared to condenser machines, and even ensures that the colours of your clothes don't bleed or fade. Its Gentle Drying feature lowers the temperature up to 20%, drying your clothes gently yet efficiently. And, its Closed Cycle feature ensures efficient drying at high temperature.

Wash and dry quickly to suit your daily needs.

**WASHER DRYER**
Volta Beko washing machines come equipped with the Super Express Wash & Wear™ program.

**WASH & WEAR™**
This feature allows you to get 1 kg of laundry washed and dried in less than an hour. 2 shirts (0.5 kg) will be ready in 28 minutes when you set the temperature to 20°C. 5 shirts (1 kg) will be dried completely in 60 minutes when you set the temperature to 30°C.
